A Decade of Growth, Challenges & Sustainability

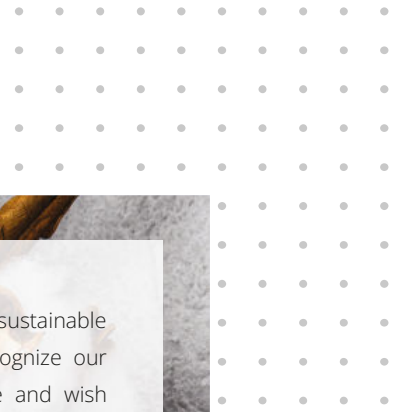

Axita Cotton Limited, established in 2013 in Ahmedabad, Gujarat, is a leading manufacturer and exporter of high-quality cotton products. The company transitioned from a private limited entity to a public limited company in 2018, marking a significant milestone. Axita Cotton successfully launched its Initial Public Offering (IPO) in December 2018, raising ₹1,051.20 lakhs. The company's shares were initially listed on the SME platform of BSE Limited and later graduated to the Main Board. Axita Cotton is now also listed on the National Stock Exchange (NSE), reflecting its robust growth and market presence.

The company specializes in producing a wide range of cotton bales, including the highly sought-after Shankar-6 and MCU-5/MECH varieties. Axita Cotton is committed to sustainable and ethical practices, ensuring that its products adhere to the highest international standards such as Global Organic Textile Standards (GOTS) and the Better Cotton Initiative (BCI).

With a strong global presence, Axita Cotton exports to multiple countries, including Bangladesh, Vietnam, China, Indonesia, and Thailand. The company's operations are deeply rooted in sustainability, with continuous investments in energy-efficient technologies and organic farming practices.

Under the dynamic leadership of Kushal Patel, Axita Cotton has experienced rapid growth, with a focus on expanding its global footprint and maintaining its dedication to corporate social

Established in 2013, Axita Cotton today stands tall as a leading manufacturer and exporter of international quality cotton.

VISION

At Axita Cotton, our vision is to pave the way for sustainable and carbon-neutral farming practices. We recognize our role in curbing the impact of climate change and wish to contribute to securing a sustainable future for all by diligently working to reduce carbon emissions.

We aim to use renewable energy, reduce chemicals, and protect the land with methods like no-till farming, organic pest control, crop rotation, and cover cropping to maintain a balanced ecosystem.

We are also resolute in our ambition to extend our reach and export our ideals, products, and values to more countries.

MISSION

OUR MISSION IS TWO FOLD:

Adhering to organic principles and practices in cotton cultivation in order to promote the well-being of farmers and consumers alike.

Championing Sustainable Development that preserves the environment and helps to secure a greener, healthier future for all.

Esteemed Shareholders...

Mr. Nitinbhai Patel
Chairman & Managing
Director

 As the founder of Axita Cotton, I am proud of our continued innovation and growth, driving excellence in every fiber of our business.

As we reflect on the milestones achieved in the financial year 2023-2024, it is with great pride that I share with you the summary of our progress. Operating as a key player in the nationwide trading and international export of cotton bales, yarn, and essential raw materials for the textile industry, we have navigated the year with the unparalleled dedication of our key managerial persons, employees, and invaluable external stakeholders.

During this transformative year, pivotal steps were taken with resounding success. Initiatives such as the Buyback Offer in May 2023, underscoring our commitment to enhancing shareholder value and demonstrating our confidence in the organization's financial prowess, the distribution of an interim dividend in November 2023 to our esteemed shareholders, recognizing their trust and support in our endeavours and the issuance of Bonus Shares in December 2023, a gesture of appreciation for their continued loyalty and trust in our Company. This underscores our commitment to driving value creation. Notably, the introduction of an Employee Stock Ownership Plan (ESOP) Scheme, extending benefits to our dedicated employees within the Company and its Group Companies. This initiative reinforces our commitment to employee welfare, encourages ownership, and fosters a culture of dedication and mutual success among our workforce. Moreover, commencing the year with the declaration of a final dividend and strategic investment in a sports and media Company in June 2024, signalling a bold move towards unprecedented growth and diversification and expansion into new sectors, a vision passionately endorsed by our Promoters.

This report encapsulates a year of growth, symbolizing the convergence of your unwavering confidence and our shared pursuit of excellence.

I extend our heartfelt gratitude to our employees, customers, partners, and investors for their unwavering support and pivotal contributions to our collective journey. Your steadfast faith in Axita Cotton thrusts us forward towards even greater accomplishments.

As we stand at the threshold of the future, our commitment to delivering value to you, our esteemed stakeholders, remains steadfast and resolute. The unwavering dedication of our team ensures that the horizon of possibilities for our Company is limitless, promising sustained value and growth.

Vision

To be a global leader in the cotton industry, renowned for our innovation, quality, and sustainability.

Mission

To deliver superior cotton products through continuous innovation, ethical practices, and commitment to customer satisfaction, while fostering sustainable growth and development.

INVESTING IN GROWTH AND EFFICIENCY

01

Currently, our production facility is located in Kadi in the Mehsana district of Gujarat and remains in operation for nearly 8 months a year. We recognize that a company's success hinges on its ability to meet growing demands efficiently and responsibly. In this endeavour, we have been directing greater attention and resources to amplify our production capacity and unlock higher levels of efficiency and growth.

02

Through strategic investments in technology, infrastructure, and safety measures, we are working on streamlining operations, minimizing downtime, efficient management, well organised accounts /admin department and increasing production

03

In order to prevent production bottlenecks and cater to increased demands, we are optimizing our supply chains to ensure the timely availability of raw materials and e client distribution of our finished products.

04

At Axita Cotton, the safety and well-being of our employees and their families are paramount. Modernizing our machinery and installing the latest safety gear and equipment, will enable us to handle larger workloads, while also ensuring labour safety.

05

Furthermore, we are introducing measures to provide support and security to our employees' families. This includes assistance in accessing healthcare services and education support for the children.

Farmer's Training

Farmers training for sustainable cotton growing is important to help them adopt practices that protect the environment and the health of their communities. Some of the key topics that can be covered in these training include.

01 Good agricultural practices (GAP)

GAP are a set of principles and practices that help farmers to produce crops more efficiently and sustainably. They include things like crop rotation, integrated pest management, and water conservation.

02 Organic farming

Organic farming is a system of agriculture that excludes the use of synthetic fertilizers, pesticides, and herbicides. It can help to improve soil health, reduce pollution, and protect biodiversity.

03 Water conservation

Cotton is a water-intensive crop, so it is important for farmers to adopt water-saving practices. This could include things like drip irrigation, rainwater harvesting, and planting drought-tolerant varieties of cotton.

04 Pest management

There are a number of ways to manage pests without using harmful chemicals. This could include things like crop rotation, biological control, and integrated pest management.

05 Economics of sustainable cotton farming

Farmers need to be able to make a profit from sustainable cotton farming. This means understanding the costs and benefits of different practices, and finding ways to reduce their costs.

Farmer's Training

Training farmers in sustainable cotton growing can be done through a variety of channels, including:

On-farm training:

This is the most effective way to train farmers, as it allows them to learn about the practices in their own fields

Extension services.

Government and non-governmental organizations (NGO) often provide extension services to farmers.

Training materials

There are a number of training materials available to farmers, including books, pamphlets, and videos.

Online training

There are a number of online training courses available to farmers. These courses can be convenient

By providing farmers with the training they need, we can help them to grow cotton in a way that is good for the environment, the economy, and the health of their communities.

Here are some specific examples of sustainable cotton farming practices:

- ~ Using drip irrigation to conserve water.
- ~ Planting cover crops to improve soil health.
- ~ Using integrated pest management to control pests without using harmful chemicals.
- ~ Crops to reduce the build-up of pests and diseases.
- ~ Using organic fertilizers to improve soil fertility.
- ~ Harvesting cotton by hand to avoid damage to the environment.

Buyback of Shares of the Company

During the year under review, the Company bought back 900000 (Nine Lakh) fully paid-up Equity Shares of the Company, each having a face value of 1/- ("Equity Shares"), representing 0.46% aggregate of the total paid-up Equity Share capital of the Company, at a price of Rs. 56/- (Rupees Fifty-Six Only) per Equity Share ("Buyback Price") paid in cash for an aggregate amount of Rs. 5,04,00,000 (Rupees Five Crore Four Lakh Only) ("Buyback Size") being 9.63% of the aggregate of the fully paid-up equity share capital and free reserves as per the latest audited financial statements of the Company i.e. as at March 31, 2023, excluding transaction

costs viz, brokerage costs, fees, turnover charges, applicable taxes such as buyback tax, securities transaction tax, goods and services tax, stamp duty, etc., expenses incurred or to be incurred for the buyback like filing fees payable to the Securities and Exchange Board of India ("SEBI"), advisors / legal fees, public announcement publication expenses, printing and dispatch expenses and other incidental and related expenses, etc.

The buyback size represented 9.63% aggregate of the 'total issued and fully paid-up equity share capital and free reserves' as per the audited standalone financial statements of the Company as on March 31, 2023, respectively and the shares bought back constituted approximately 0.46% of the total number of equity shares of the total paid-up equity share capital of the Company as on March 31, 2023.

The Company adopted the tender offer route through stock exchange mechanism for the purpose of buyback. The tendering period for buyback of equity shares commenced on June 08, 2023 and closed on June 14, 2023. Post-completion of extinguishment of 900000 (Nine Lakh) equity shares bought back, necessary intimation(s) were filed with the stock exchange(s), where the Company's shares are listed. Further, the certificate of extinguishment was also filed with the Securities and Exchange Board of India on July 05, 2023, in compliance with the applicable provisions of law. The details of buyback are available on the website of the Company at <https://axitacotton.com/investor-relation/offer-document/>.

Consequently, the issued, subscribed and paid-up share capital of the Company was at Rs. 19,56,60,000 /- (Rupees Nineteen Crores Fifty Six Lakh Sixty Thousand Only) divided into 195660000 (Nineteen Crores Fifty Six Lakh Sixty Thousand) Equity Shares of 1/- each as on July 05, 2023, as against Rs. 19,65,60,000/- (Rupees Nineteen Crores Sixty Five Lakh Sixty Thousand Only) divided into 196560000 (Nineteen Crores Sixty Five Lakh Sixty Thousand) Equity Shares of 1/- each as on March 31, 2023. The Company has only one class of equity shares.

Bonus Issue of Shares of the Company

During the year under review and after successfully completion of Buyback, the Board of Directors at their meeting held on November 23, 2023, recommended issue of Bonus Equity Shares, in the proportion of 1:3, i.e., 01 (One) new fully paid-up equity share for every 03 (Three) existing fully paid-up equity share held. This bonus issue was approved vide a resolution by the shareholders at their Extra-ordinary General Meeting held on December 16, 2023. Consequently 65220000 bonus shares were issued on fraction share basis, to the members whose names appeared on the register of members as on December 25, 2023 (Ex Date December 22, 2023), being the record date fixed for that purpose. However, the Company had allotted 65218008 (Six Crore Fifty Two Lakh Eighteen Thousand Eight) equity shares due to fractional shares allotted on December 28, 2023. Pursuant to the aforesaid issue of Bonus Shares, the Issued, Subscribed and Paid-up Equity Share Capital of your Company was increased to Rs. 26,08,78,008/- (Rupees Twenty Six Crores Eight Lakh Seventy Eight Thousand and Eight Only) divided into 260878008 (Twenty Six Crores Eight Lakh Seventy Eight Thousand and Eight) Equity Shares of Rs. 1/- each.

(iii) Independent Directors:

Independent Directors play an important role in the governance processes of the Board. They bring to bear their expertise and experience on the deliberations of the Board. This enriches the decision making process at the Board with different points of view and experiences and prevents conflict of interest in the decision making process.

None of the Independent Directors serves as “Independent Director” in more than seven listed companies. No person has been appointed or continuing as an Alternate Director for an Independent Director of the Company.

Based on the disclosures received from all the Independent Directors and also in the opinion of the Board, the Independent Directors fulfil the conditions specified in SEBI (LODR) Regulations, 2015 and are independent of the management.

During the year under review, the Independent Directors met on March 31, 2024, interalia:

- To review the performance of the Non-Independent Directors (Executive Directors);
- To review the performance of the Board of the Company as a whole;
- To review the performance of Chairman of the Company taking into account the views of Executive Directors on the same;
- To assess the quality, quantity and timeliness of flow of information between the Company management and the Board.

They expressed satisfaction at the robustness of the evaluation process, the Board’s freedom to express views on the business transacted at the Meetings and the openness with which the Management discussed various subject matters on the agenda of meetings.

(iv) Disclosure of relationships between the Directors inter-se:

Except between Mr. Nitinbhai Govindbhai Patel (Chairman & Managing Director) and his Son viz. Mr. Kushal Nitinbhai Patel (Non Executive Director), there is no relationship between the Directors inter-se.

(v) Familiarisation Programme for Independent Director:

On appointment of an individual as Director, the Company issues a formal Letter of Appointment to the concerned director, setting out in detail, the terms of appointment, duties and responsibilities. Each newly appointed Independent Director is taken through a formal Familiarisation Program including the presentation from the Chairman & Managing Director providing information relating to the Company, Cotton ginning factory, industry, business model of the Company, geographies in which Company operates, etc. The programme also provides awareness of the Independent Directors on their roles, rights, responsibilities towards the Company. Further, the Familiarisation Programme also provides information relating to the financial performance of the Company and budget and control process of the Company.

The details of Familiarisation Program imparted to Independent Directors is also posted on the Company's Website at www.axitacotton.com.

(vi) Code of Conduct for Directors and Senior Management Personnel:

PRINCIPLE 5: Businesses should respect and promote human rights

- The principle is based on the concept that the human rights are inherent to every human being, is non-negotiable, and not to be diluted in any manner for the sake of business.
- UN Guiding Principles on Business and Human Rights also consider the human rights as a responsibility of the business concerns and requires them to be responsible for any violation and take adequate steps to make sure that no human rights abuse happens because of their business operation.

There are five core elements to this Principle as below:

- The governing structure of the business should make sure that the human rights requirements in the Constitution of India and other laws prevailing in India along with the International Bill of Rights is communicated to its employees and collaborators, and if there is any potential for human rights impact, there should be relevant authority to handle them.
- The governing system of the organisation should have policies, structure and procedure to identify and mitigate any possible human rights violations from its operation.
- The organisation should adequately address mitigation of the human rights issues arising out of their operations and have effective corrective actions to avoid recurrence.
- Have promotional programs and drives across the value chain to educate the employees and raise awareness about the human rights violations and how it can happen from their operations.
- Effective grievance redressal mechanisms in place for all the affected groups and communities to raise their concerns to the organisation.

PRINCIPLE 6: Businesses should respect and make efforts to protect and restore the environment

- The equity, dignity, and quality of life for the employees are the crux of this Principle and are related to the UN SDG 8 for Decent Work and Economic Growth.
- This covers all the people in the complete value chain, addressing all kinds of discrimination and encouraging diversity. The quality of life encompasses the whole family of the employee. There are ten core elements to the principle that covers both the organization and the entities in its value chain. Both entities must comply with the regulatory and statutory requirements, and further provide equal opportunity to all the employees during recruitment, promotions, appraisals, and exit from the organisation.
- The core idea is to Encourage collective bargaining, unions and associations, and have appropriate systems for grievance redressal, prevent child labour and slave labour in all forms, Support work life balance for all employees, provide a safe and hygienic place of work with provisions for gender specific requirements, provide required training and skill upgradation for the employees with access to learning opportunities.

Cotton seeds and cotton are our key raw material and our dependence on it is quite large owing to 90% of products being made from cotton. We have well understood the environmental impact that might occur if it is produced in an irresponsible manner which comprises of unsustainable use of agro chemicals, water and soil. Cotton produced under such practices contaminates the freshwater systems, degrades the soil quality, impact the health of biodiversity, farmers and nearby population.

Upon recognising this issue and the need to scale the uptake of sustainable cotton, we initiated our engagement with farmers to build their capacity for sustainable agricultural practices.

Our material cotton seed is agriculture product and to protect soil and environment we are spreading awareness about organic farming and for that we conduct seminar and training programs for organic farming and also provide guidance and related education to farmers.

PRINCIPLE 7: Businesses, when engaging in influencing public and regulatory policy, should do so in a manner that is responsible and transparent

- The principle is based on the understanding that national and international legal frameworks have a very important effect on the businesses that operate within that area and decide their growth prospects in a significant manner.
- The principle does not forbid the organisation to work with government for policy formulations but reiterates that the organisation has a responsibility to be transparent.
- The core elements include:
 - A. The organisation should have a system of having complete public disclosure when in an advocacy role consistent with the NGRBC.
 - B. The industry associations and trade and commerce groups should be used to take up policy advocacy to the Government,
 - C. especially in matters that affect the policies that relate to the organisation.

ANNEXURE - H TO DIRECTORS' REPORT: MANAGEMENT DISCUSSION AND ANALYSIS REPORT

This report covers the operations and financial performance of the Company for the year ended March 31, 2024 and forms part of the Annual Report.

GLOBAL ECONOMY:

Global economic growth is anticipated to reach 3.1 percent in 2024 and 3.2 percent in 2025. The forecast for 2024 exceeds the October 2023 World Economic Outlook (WEO) by 0.2 percentage points due to stronger-than-anticipated resilience observed in the United States and several prominent emerging market and developing economies, alongside fiscal measures implemented in China. Nevertheless, the projected growth rates for 2024-2025 fall short of the 3.8 percent historical average recorded during 2000-2019. This divergence is attributed to heightened central bank policy rates aimed at combating inflation, reduction in fiscal support amidst elevated debt levels that impose constraints on economic activity, and sluggish underlying productivity gains. Notably, inflation rates are declining more swiftly than earlier projections across most regions, driven by the resolution of supply-side disruptions and the implementation of restrictive monetary policies. Global headline inflation is expected to decrease to 5.8 percent in 2024 and further to 4.4 percent in 2025, with downward revisions made to the 2025 forecast.

INDIAN ECONOMIC OVERVIEW

India's economy has demonstrated remarkable resilience in the face of global headwinds and geopolitical tensions, driven by robust domestic consumption, a resurgence in rural demand, and sustained investment and manufacturing momentum. This broad-based growth across sectors underscores India's pivotal role in supporting the global economy and highlights its ability to navigate complex macroeconomic challenges. The country's economic performance is a testament to its strong fundamentals and its emergence as a key driver of global growth.

The concerted efforts of the Government and the Reserve Bank of India (RBI) to combat inflation, including the implementation of judicious monetary policy measures, strategic food buffer management, and targeted import easing, have yielded impressive results in inflation management. As a consequence, retail inflation in Financial Year 2023-24 has exhibited a significant downtrend, plummeting to its lowest point since the onset of the Covid19 pandemic. Moreover, core inflation has decreased to a mere 3.3% in March 2024, indicating a notable achievement in price stability. Looking ahead, forecasts of an above-normal monsoon in 2024 augur well for a bountiful harvest, further alleviating inflation concerns and bolstering economic prospects.

Amidst the prevailing global trade slowdown, India is poised to defy trends, with its trade deficit projected to decline in the forthcoming years. The Production Linked Incentive (PLI) scheme is expected to drive this growth, as it expands its scope and encompasses additional sectors. Fueled by robust exports and steadfast remittances, leading international agencies and the RBI forecast a significant moderation in the Current Account Deficit (CAD) to GDP ratio, dipping below 1% in Financial Year 2023-24. This resilient performance underscores India's economic strength and its ability to navigate complex global trade dynamics.

India maintains its position as the world's fastest-growing major economy, with an optimistic growth trajectory forecasted for the current fiscal year. Leading international organizations and the Reserve Bank of India (RBI) have reaffirmed their confidence in India's economic prospects, issuing favourable growth projections. This consensus endorsement underscores the country's robust economic fundamentals and its ability to sustain momentum in the face of global uncertainty, solidifying India's status as a beacon of growth and stability.

BUSINESS SCENARIO

The textile sector is a vital component of the Indian economy, contributing significantly to the country's GDP and employment. With a growth rate of 14.9%, the domestic apparel and textile industry is a substantial contributor to India's GDP, accounting for 2% of the country's GDP and 7% of the industry output in value terms. The sector's share in the overall textile basket is consistently increasing, driven by the growing demand for technical textiles, which registered a 28.4% year-on-year growth rate.

The government has demonstrated its commitment to supporting the textile sector through various schemes and programs, including the Production Linked Incentive (PLI) and Maga Investment Textiles Parks (MITRA). The removal of import duty on Extra Long Staple (ELS) cotton has also benefited the textile industry, which imports ELS cotton from countries like the USA and Egypt to produce high-valued textile and apparel products mainly for exports.

According to the Ministry of Commerce & Industry, India's cotton yarn, fabrics/made-ups, and handloom exports witnessed a significant growth of 6.71% year-on-year, reaching a total value of \$11.7 billion in the fiscal year 2023-24. The top export markets included the United States, Bangladesh, China, Sri Lanka, and the United Arab Emirates, with exports expanding into new markets like Anguilla, Serbia, and Georgia.

While the textile sector has shown robust growth, the apparel exports sector experienced more modest growth, increasing by only 1.70% in March 2024. The annual figures reveal a complex picture, with textiles exports growing by 2.62% and apparel exports declining by 10.25%, resulting in an overall degrowth of 3.24% in the combined textiles and apparel exports for the year.

The government's initiatives and the industry's efforts have contributed to the sector's growth, but challenges persist. Addressing these challenges and leveraging opportunities for sustainable growth and development will be crucial for the textile sector's future success.

INDUSTRY STRUCTURE AND DEVELOPMENTS

The Textile Market size is estimated at USD 748 billion in 2024, and is expected to reach USD 889.24 billion by 2029, growing at a CAGR of 3.52% during the forecast period (2024-2029).

The COVID-19 pandemic has challenged the textile industry drastically in 2020. Asia, which is one of the largest markets for the textile industry in the world, has suffered from the prolonged lockdowns and restrictions in the majority of Asian countries along with the sudden drop in international demand for their products. The loss was particularly high in countries where the textile industry accounted for a larger share of the exports. According to the study by the International Labour Organization (ILO) the global textile trade collapsed during the first half of 2020. Also, exports to the major buying regions in the European Union, the United States, and Japan fell by around 70%. The industry also suffered several supply chain disruptions due to the shortages of cotton and other raw materials.

The textile industry is an ever-growing market, with key competitors being China, the European Union, the United States, and India. China is the world's leading producer and exporter of both raw textiles and garments. The United States is the leading producer and exporter of raw cotton, while also being the top importer of raw textiles and garments. The textile industry of the European Union comprises Germany, Spain, France, Italy, and Portugal at the forefront with a value of more than 1/5th of the global textile industry. India is the third-largest textile manufacturing industry and is responsible for more than 6% of the total textile production, globally. The rapid industrialization in the developed and developing countries and the evolving technology are helping the textile industry to have modern installations which are capable of high-efficient fabric production. These factors are helping the textile industry to record more revenues during the study period and are expected to help the industry further in the forecast period.

KEY FINANCIAL RATIOS:

The key Financial Ratios during the Financial Year 2023-2024 vis-à-vis Financial Year 2022-2023 are as below:

Particulars	Numerator	Denominator	2023-24	2022-23	% of variance	Explanation for change in the ratio by more than 25%
Liquidity Ratio						
Current Ratio (times)	Current Assets	Current Liabilities	3.10	3.13	-1%	
Solvency Ratio						
Debt-Equity Ratio (times)	Current & Non-Current Borrowing + Lease Liabilities	Total Equity	0.39	0.12	241%	Raising funds through SBI CC increases our debt component, leading to a higher debt equity ratio on the balance sheet compared to the previous year. This reflects our strategic move to secure immediate capital for operational needs, potentially enhancing long-term growth prospects despite the short-term impact on financial ratios.
Debt Service Coverage Ratio (times)	Net Profit after taxes + Depreciation & Amortisation Expenses + interest + Taxes	Interest + Lease Payments + Principal Repayments of Loan	34.14	21.53	59%	Raising funds through SBI CC increases our interest component, leading to a higher debt Service coverage ratio on the balance sheet compared to the previous year. This reflects our strategic move to secure immediate capital for operational needs, potentially enhancing long-term growth prospects despite the short-term impact on financial ratios.

Particulars	Numerator	Denominator	2023-24	2022-23	% of variance	Explanation for change in the ratio by more than 25%
Profitability ratio						
Net Profit Ratio (%)	Profit After Tax	Total Revenue from Operations	1.85%	3.11%	-41%	The decline in the net profit ratio can be attributed to the unexpected increase in the cost of goods sold (COGS), particularly due to the unanticipated rise in prices of essential raw materials such as kapas. Additionally, the unexpected price hike in cotton bales, a significant part of our finished goods inventory, has further contributed to this increase in COGS. This sudden escalation in input costs has significantly squeezed our profit margins, resulting in a lower net profit ratio. Despite our efforts to mitigate these challenges, the unforeseen market conditions have impacted our profitability metrics.
Return on Equity Ratio (%)	Profit After Tax - preference dividend (if any)	Average Shareholder's Equity	34.78%	38.44%	-10%	
Return on Capital employed (%)	Earning before interest and taxes	Net Worth + Total Debt + Deferred Tax Liability - Deferred Tax Assets	30.94%	39.88%	-22%	
Return on Investment (%)	Income generated from investments	Weighted average invested funds				Not Applicable
Utilization Ratio						
Trade Receivables turnover ratio (times)	Revenue from operations	Average Trade Receivables	26.76	9.35	186%	The higher debtors turnover ratio compared to the previous year indicates that we've been collecting payments from our customers at a faster rate. This suggests improved efficiency in our credit management processes, resulting in quicker conversion of sales into cash and better management of our accounts receivable.
Inventory turnover ratio (times)	Cost of goods sold	Average Inventory	81.04	86.75	-7%	

Particulars	Numerator	Denominator	2023-24	2022-23	% of variance	Explanation for change in the ratio by more than 25%
Trade payables turnover ratio (times)	Purchase of stock in trade + Purchase of Raw material	Average Trade Payables	123.05	12.61	876%	The increase in credit turnover ratios highlights our proactive approach in enhancing financial efficiency through streamlined operations, strengthened customer relationships, and effective cash flow management. By optimizing credit policies, negotiating favorable terms with suppliers, and ensuring timely payments, we've fostered trust among stakeholders and positioned ourselves for sustained growth and operational resilience.
Net capital turnover ratio (times)	Revenue from Operations	Average Working Capital	20.54	13.73	50%	The high net capital turnover ratio compared to the previous year can be attributed to the significant increase in sales volume. This rise in sales indicates improved demand for our products/services, leading to more efficient utilization of invested capital to generate revenue. As a result, our assets are being utilized more effectively to drive sales, contributing to a higher turnover ratio and reflecting improved operational efficiency and financial performance.

Note: Previous year's figures have been regrouped / reclassified wherever necessary to correspond with the current year's classification / disclosure and may not be comparable with the figures reported earlier.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF AXITA COTTON LIMITED

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

OPINION

We have audited the accompanying financial statements of Axita Cotton Limited (the 'Company'), which comprise the Balance Sheet as at 31st March 2024, the Statement of Profit and Loss, the Cash Flow Statement and a summary of Material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March, 2024 and its Profit and Cash Flows for the year ended on that date.

BASIS FOR OPINION

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013 ("the Act"). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statement section of our report.

We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key Audit Matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined that there are no significant matters that are required to be disclosed here.

INFORMATION OTHER THAN FINANCIAL STATEMENTS AND THE AUDITOR'S REPORT THEREON

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon. In connection with our audit of financial statements, our responsibility is to read the other information and in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report the fact. We have nothing to report in this regard.

MANAGEMENT'S AND BOARD OF DIRECTORS' RESPONSIBILITIES FOR THE FINANCIAL STATEMENTS

The Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management and board of directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management and board of directors either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so. The board of directors is also responsible for overseeing the company's financial reporting process.

AUDITOR'S RESPONSIBILITY FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing (SAs) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- i. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- ii. Obtain an understanding of the internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the act, we are also responsible for explaining our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- iii. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- iv. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- v. Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

MATERIALITY

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

COMMUNICATION WITH MANAGEMENT

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

1. As required by section 197(16) of the Act, we report that Managerial Remuneration has been paid and provided by the company in accordance with the requisite approvals mandated by the provisions of Section 197 of the Act read with Schedule V to the Act.
2. As required by 'the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act we give in the "Annexure B", the statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

3. Further to our comments in Annexure B as required by Section 143 (3) of the Act, we report that:
- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - c) The balance sheet, the statement of profit and loss and the Cash Flow Statement dealt with by this report are in agreement with the books of account;
 - d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act;
 - e) On the basis of the written representations received from the directors and taken on record by the Board of Directors, none of the directors is disqualified as on 31 March, 2024 from being appointed as a director in terms of section 164(2) of the Act;
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in “Annexure A” to this report;
 - g) With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company does not have any pending litigations which would impact its financial position.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
 - iv. The management has represented that, to the best of its knowledge and belief, other than as disclosed in the notes to the accounts,
 - i) No funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the company to or in any other person(s) or entity(ies), including foreign entities 'Intermediaries', with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company 'Ultimate Beneficiaries' or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
 - ii) No funds have been received by the company from any person(s) or entity(ies), including foreign entities 'Funding Parties', with the understanding, whether recorded in writing or otherwise, that the company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party 'Ultimate Beneficiaries' or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

- iii) Based on audit procedures carried out by us, that we have considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us believe that the representations under sub-clause (i) and (ii) contain any material misstatement.

- h) The dividend declared or paid during the year by the Company is in compliance with Section 123 of the Act.

- i) Based on our examination which included test checks, the company has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with.

“ANNEXURE A”

TO THE INDEPENDENT AUDITOR’S ON THE FINANCIAL STATEMENTS OF AXITA COTTON LIMITED REPORT ON THE INTERNAL FINANCIAL CONTROLS UNDER CLAUSE (I) OF SUB-SECTION 3 OF SECTION 143 OF THE COMPANIES ACT, 2013 (“THE ACT”)

Based on the audit procedures performed for the purpose of reporting true and fair view on the financial statements of the company and taking into consideration the information and explanations given to us and the books of account and other records examined by us in the normal course of audit, and to the best of our knowledge and belief we report that:

We have audited the internal financial controls over financial reporting of Axita Cotton Limited (“the Company”) as of March 31, 2024 in conjunction with our audit of the Financial Statements of the Company for the year ended on that date.

MANAGEMENT’S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Company’s Management is responsible for establishing and maintaining Internal Financial Controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate Internal Financial Controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

AUDITOR’S RESPONSIBILITY

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing as specified under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls and both issued by the Institute of Chartered Accountants of India.

Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the Internal Financial Control system over Financial Reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Financial Statements for external purposes in accordance with generally accepted accounting principles.

A Company's Internal Financial Control over financial reporting includes those policies and procedures that:

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the Financial Statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

COMPANY OVERVIEW AND MATERIAL ACCOUNTING POLICIES

NOTE 1 – CORPORATE INFORMATION

Axita Cotton Limited ('The Company') is engaged in the business of manufacturing, trading, processing and finishing of cotton bales and yarn. The registered office of the Company is situated at Servey No. 324 357 358 Kadi Thol Road, Borisana, Kadi, Mahesana- 382715, Gujarat.

The Financial Statements are presented in Indian Rupee (INR), which is the functional and presentation currency of the Company. The Financial Statements were approved and authorized for issue in accordance with a resolution passed in meeting of Board of the Directors held on 23rd April 2024.

NOTE 2 – MATERIAL ACCOUNTING POLICIES

This note provides a list of the significant accounting policies adopted in the preparation of these Financial Statements. Accounting policies have been consistently applied to all the years presented except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

(a) BASIS OF COMPLIANCE

The Financial Statements have been prepared in accordance and comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter from time to time.

(b) BASIS OF PREPARATION OF FINANCIAL STATEMENT

The Financial Statements have been prepared on historical cost basis, except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in accounting policies below. All the values are rounded off to the nearest Lacs unless otherwise indicated.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle (i.e. 12 months) and other criteria set out in the Schedule III to the Companies Act, 2013.

(c) CRITICAL ACCOUNTING ESTIMATES, ASSUMPTIONS, AND JUDGMENTS

The preparation of the Financial Statements requires management to make estimates, assumptions and judgments that affect the reported balances of assets and liabilities and disclosures as at the date of the Financial Statements and the reported amounts of income and expense for the periods presented.

The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates considering different assumptions and conditions.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

This note provides an overview of the areas that involved a higher degree of judgment or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgments is included in relevant notes together with information about the basis of calculation for each affected line item in the Financial Statements.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year are included in the following notes:

- Lease term: whether the Group is reasonably certain to exercise extension options.
- Revenue recognition: timing of revenue recognition based on when the performance obligations are satisfied under contracts with customers
- Useful lives of property, plant and equipment, right of use assets and intangible assets
- Measurement of defined benefit obligations: key actuarial assumptions;
- Recognition of deferred tax assets: availability of future taxable profit against which deductible temporary differences and tax losses carried forward can be utilised;
- Recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources; and
- Measurement of ECL allowance for trade and other receivables, loans and contract assets: key assumptions in determining the weighted-average loss rate.

(d) PROPERTY, PLANT AND EQUIPMENT / INTANGIBLE ASSETS

An item of property, plant and equipment ('PPE') is recognised as an asset if it is probable that the future economic benefits associated with the item will flow to the Company and its cost can be measured reliably. These recognition principles are applied to the costs incurred initially to acquire item of PPE, to the pre-operative and trial run costs incurred (net of sales), if any and also to the costs incurred subsequently to add to, replace part of, or service it.

Property, Plant and Equipment are stated at cost of acquisition/construction net of recoverable taxes and less accumulated depreciation/amortization and impairment loss, if any. Cost includes cost of acquisition, construction, installation, borrowing cost and any cost directly attributable to bringing the assets to its working condition for its intended use, net of recoverable taxes. The Company capitalizes to project assets all the cost directly attributable and ascertainable, to completing the project.

All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred. If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment. The carrying amount of any component accounted for as a separate asset is de-recognized when replaced.

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortization and accumulated impairment losses.

Any item of property, plant and equipment / intangible assets is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is charged to revenue in the Statement of Profit and Loss when the asset is derecognized.

CAPITAL WORK IN PROGRESS / INTANGIBLE ASSETS UNDER DEVELOPMENT

Projects under commissioning and other CWIP/ intangible assets under development are carried at cost, comprising direct cost, related incidental expenses and attributable borrowing cost.

Subsequent expenditures relating to property, plant and equipment are capitalised only when it is probable that future economic benefit associated with these will flow to the Company and the cost of the item can be measured reliably. Advances given to acquire property, plant and equipment are recorded as non-current assets and subsequently transferred to CWIP on acquisition of related assets.

DEPRECIATION AND AMORTIZATION, ESTIMATED USEFUL LIVES AND RESIDUAL VALUES

Depreciation is calculated to systematically allocate the cost of property, plant and equipment and intangible assets net of the estimated residual values over the estimated useful life. Freehold land is not depreciated. Depreciation on property, plant and equipment is provided using Written Down Value method over the useful life of assets, which is as stated in Schedule II of Companies Act, 2013 or based on the certificate of technical engineers as accepted by the Management of Company. Intangible assets are amortized over their respective individual estimated useful life on a Straight-Line Method commencing from the date the asset is available to the Company for its use. The management estimates the useful life as follows: -

Class of Assets*	Useful Life of assets in Years
Plant & Machinery	15 years
Building	30 years
Office Equipment	5 years
Computers	3 years
Furniture and fixtures	10 years
Electrical Fittings	15 years
Vehicle	8 years
Software	10 years
Leasehold Improvements	Amortised over the Lease period

* For these classes of assets, based on internal assessment and independent technical evaluation carried out by external valuers, the Management believes that the useful lives as given above best represent the period over which the Management expects to use these assets.

The management believes that above useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used. The useful lives are reviewed by the management at each financial year end and revised, if appropriate. In case of a revision, the unamortized depreciable amount (remaining net value of assets) is charged over the revised remaining useful lives. Based on management estimate, residual value of 5% is considered for respective items of property, plant & equipment assets.

The residual values, useful lives and methods of depreciation of property, plant and equipment (PPE) / intangible assets are reviewed at the end of each financial year and adjusted prospectively if appropriate. Depreciation on items of property, plant and equipment acquired / disposed off during the year is provided on pro-rata basis with reference to the date of addition / disposal.

The right-of-use asset (recognized under Ind AS 116 Leases) is depreciated using the straight-line method from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term.

(e) IMPAIRMENT OF NON-FINANCIAL ASSETS

For the purpose of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets is considered as a cash generating unit (“CGU”). The carrying values of assets / CGU at each Balance sheet date are reviewed to determine whether there is any indication that an asset may be impaired. If any indication of such impairment exists, the recoverable amount of such assets / CGU is estimated and in case the carrying amount of these assets exceeds their recoverable amount, an impairment loss is recognised in the Statement of Profit and Loss. The recoverable amount is the higher of the net selling price and their value in use. Value in use is arrived at by discounting the future Cash Flows to their present value based on an appropriate discount factor. Assessment is also done at each Balance sheet date as to whether there is indication that an impairment loss recognised for an asset in prior accounting periods no longer exists or may have decreased, consequent to which such reversal of impairment loss is recognised in the Statement of Profit and Loss.

(f) FINANCIAL INSTRUMENTS

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

**FINANCIAL ASSET
INITIAL RECOGNITION AND MEASUREMENT**

A financial asset is recognised in the Balance Sheet when the Company becomes party to the contractual provisions of the instrument. At initial recognition, the Company measures a financial asset at its fair value plus or minus, in the case of a financial asset not measured at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of the financial asset except trade receivables (not containing significant financing component) are measured at transaction price.

SUBSEQUENT MEASUREMENT

For purpose of subsequent measurement, financial assets are classified as under:

- Financial assets measured at amortized cost;
- Financial assets measured at fair value through profit or loss (FVTPL); and
- Financial assets measured at fair value through other comprehensive income (FVTOCI).

The Company classifies its financial assets in the above-mentioned categories based on:

- The Company's business model for managing the financial assets, and
- The contractual cash flows characteristics of the financial asset.

A financial asset is measured at amortized cost if both of the following conditions are met:

- The financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and
- The contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

Financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the profit or loss. A gain or loss on a debt investment that is subsequently measured at amortised cost is recognised in the Statement of Profit and Loss when the asset is derecognised or impaired.

A financial asset is measured at fair value through other comprehensive income if both of the following conditions are met:

- The financial asset is held within a business model whose objective is achieved by both collecting the contractual cash flows and selling financial assets and
- The assets' contractual cash flows represent SPPI.

A financial asset is measured at fair value through profit or loss unless it is measured at amortized cost or at fair value through other comprehensive income. In addition, the Company may elect to designate a financial asset, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

EQUITY INVESTMENTS

The Company subsequently measures all equity investments at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity. Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the P&L.

For debt instrument, movements in the carrying amount are recorded through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains or losses which are recognised in the Statement of Profit and Loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to the Statement of Profit and Loss. Interest income from these financial assets is included in other income using the EIR method.

DE-RECOGNITION

A financial asset is derecognised only when the Company:

- has transferred the rights to receive Cash Flows from the financial asset; or
- retains the contractual rights to receive the Cash Flows of the financial asset but assumes a contractual obligation to pay the Cash Flows to one or more recipients.

Where the Company transfers an asset, it evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. Where the Company has transferred substantially all risks and rewards of ownership, the financial asset is derecognised. Where the Company has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised. Where the Company has neither transferred a financial asset nor retained substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

IMPAIRMENT OF FINANCIAL ASSETS

The Company assesses impairment based on expected credit loss (ECL) model to the following:

- Financial assets measured at amortized cost
- Financial assets measured at fair value through other comprehensive income

Expected credit losses are measured through a loss allowance at an amount equal to:

- The 12-months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date); or
- Life time expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument).

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables or contract revenue receivables. Under the simplified approach, the Company is not required to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

The Company uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivable and is adjusted for forward looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analyzed.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the Statement of Profit and Loss. ECL is presented as an allowance, i.e., as an integral part of the measurement of the financial assets in the Balance Sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Company does not reduce impairment allowance from the gross carrying amount.

For assessing increase in credit risk and impairment loss for other than above financial assets, the Company combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis. The Company does not have any purchased or originated credit-impaired (POCI) financial assets, i.e., financial assets which are credit impaired on purchase/ origination.

FINANCIAL LIABILITIES

INITIAL RECOGNITION AND MEASUREMENT

Financial liabilities are classified, at initial recognition, as financial liabilities measured at fair value through profit or loss and financial liabilities measured at amortized cost as appropriate. All financial liabilities are recognized initially at fair value and, in case of loans and borrowings and payables, net of directly attributable transaction costs. The Company's financial liabilities include trade and other payables, lease liabilities, loan and borrowings including derivative liabilities etc.

SUBSEQUENT MEASUREMENT

- Financial liabilities measured at amortized cost
- Financial liabilities subsequently measured at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Gains or losses on liabilities held for trading are recognized in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 - Financial Instruments are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains / losses are not subsequently transferred to P&L. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognized in the Statement of Profit and Loss.

The Company has not designated any financial liability as at fair value through profit and loss. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the Effective Interest Rate (EIR) method. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period. The EIR amortization is included as finance costs in the Statement of Profit and Loss. Changes to the carrying amount of a financial liability as a result of renegotiation or modification of terms that do not result in derecognition of the financial liability, is recognised in the Statement of Profit and Loss.

DE-RECOGNITION

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Statement of Profit and Loss.

OFFSETTING FINANCIAL INSTRUMENTS

Financial assets and liabilities are offset and the net amount is reported in the Balance Sheet where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

FAIR VALUE MEASUREMENT

The Company measures certain financial instruments at fair value at each Balance Sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In determining the fair value of its financial

instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value.

All assets and liabilities for which fair value is measured or disclosed in the Financial Statements are categorized within the fair value hierarchy, described as under, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

(g) INVENTORIES

Items of inventories are measured at lower of cost and net realisable value after providing for obsolescence, if any, cost of inventories comprises of cost of purchase, cost of conversion and other costs including manufacturing overheads net of recoverable taxes incurred in bringing them to their respective present location and condition.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

The net realisable value of work-in-progress is determined with reference to the selling prices of related finished goods. Raw materials, components and other supplies held for use in the production of finished products are not written down below cost except in cases when a decline in the price of materials indicates that the cost of the finished products shall exceed the net realisable value.

The comparison of cost and net realisable value is made on an item-by-Item basis.

(h) EMPLOYEE BENEFITS

Employee benefits consist of provident fund, gratuity fund, compensated absences, other short term employee benefits.

POST-EMPLOYMENT BENEFIT PLANS**Defined Contribution Plan:**

Contribution towards provident fund for eligible employees are accrued in accordance with applicable statutes and deposited with the regulatory provident fund authorities (Government administered provident fund scheme). The Company does not carry any other obligation apart from the monthly contribution. The Company's contribution is recognized as an expense in the Statement of Profit and Loss during the period in which the employee renders the related service.

Defined Benefit Plan:

The Company provides for gratuity, a defined benefit plan covering eligible employees in accordance with the Payment of Gratuity Act, 1972. The cost of providing benefits is actuarially determined using the projected unit credit method, with actuarial valuations being carried out at each Balance sheet date.

The retirement benefit obligation recognized in the Balance Sheet represents the present value of the defined benefit obligation as reduced by the fair value of scheme assets. The present value of the said obligation is determined by discounting the estimated future cash outflows, using market yields of government bonds of equivalent term and currency to the liability.

The interest income / (expense) are calculated by applying the discount rate to the net defined benefit liability or asset. The net interest income / (expense) on the net defined benefit liability is recognised in the Statement of Profit and Loss.

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling (if any), are recognised immediately in the Balance Sheet with a corresponding charge or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to the Statement of Profit and Loss in subsequent periods.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in the Statement of Profit and Loss as past service cost.

Long Term Employee Benefits:

The liability in respect of accrued leave benefits which are expected to be availed or en-cashed beyond 12 months from the end of the year, is treated as long term employee benefits. The Company's liability is actuarially determined by qualified actuary at Balance Sheet date by using the Projected Unit Credit method. Actuarial losses/ gains are recognized in the Statement of Profit and Loss in the year in which they arise.

Short Term Employee Benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for services rendered by employees is recognized during the period when the employee renders the services. Short term employee benefits include salary and wages, bonus, incentive and ex-gratia and also include accrued leave benefits, which are expected to be availed or en-cashed within 12 months from the end of the year.

(i) BORROWING

Borrowings are initially recognized at fair value, net of transaction costs incurred. Interest bearing loans are subsequently measured at amortized cost by using the effective interest method (EIR method). Any difference between the proceeds (net of transaction costs) and the redemption amount is recognized in profit or loss over the period of borrowing using the effective interest method (EIR). The EIR Amortization is included as Finance Costs in the Statement of Profit and Loss.

Borrowings are derecognized from the Balance Sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss as other income or other expenses.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

(j) BORROWING COST

Borrowing costs are interest and ancillary costs incurred in connection with the arrangement of borrowings. General and specific borrowing costs attributable to acquisition and construction of qualifying assets is added to the cost of the assets upto the date the asset is ready for its intended use. Capitalisation of borrowing costs is suspended and charged to the Statement of Profit and Loss during extended periods when active development activity on the qualifying assets is interrupted. All other borrowing costs are recognised in the Statement of Profit and Loss in the period in which they are incurred. Investment income earned on the temporary investment of specific borrowing pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

(k) FOREIGN CURRENCY TRANSACTIONS

Items included in the Financial Statements are measured using the currency of the primary economic environment in which the Company operates ('the functional currency'). The Financial Statements are presented in Indian rupee (INR), which is the functional and presentation currency of the Company.

Foreign currency transactions are translated into the functional currency using the exchange rates at the date of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at the year-end exchange rates are generally recognized in profit or loss. All foreign exchange gains and losses are presented in the Statement of Profit and Loss on a net basis within other income or other expenses. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

(l) REVENUE FROM OPERATIONS

Revenue from Contract with Customers

Revenue is recognised upon transfer of control of promised goods to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those goods. Revenue from the sale of goods is recognised at the point in time when control is transferred to the customer which is usually on dispatch / delivery of goods, based on contracts with the customers. Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, price concessions, incentives, and returns, if any, as specified in the contracts with the customers. Revenue excludes taxes collected from customers on behalf of the

government. Accruals for discounts/incentives and returns are estimated (using the most likely method) based on accumulated experience and underlying schemes and agreements with customers. Due to the short nature of credit period given to customers, there is no financing component in the contract. Other operating income is accounted on accrual basis as and when the right to receive arises.

Other Income:

Interest income is recognised using effective interest rate (EIR) method. Dividend income is recognized, when the right to receive the dividend is established by the reporting date. Insurance claims are accounted for on the basis of claims admitted and to the extent that there is no uncertainty in receiving the claims.

(m) TAXATION

Income tax expenses comprises current tax (i.e. amount of tax for the period determined in accordance with the Income Tax Law) and deferred tax charge or credit (reflecting the tax effects of temporary differences between accounting income and taxable income for the period). Income tax expenses are recognized in Statement of Profit and Loss except tax expenses related to items recognized directly in reserves (including other comprehensive income) which are recognized with the underlying items.

Income Taxes

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period i.e. as per the provisions of the Income Tax Act, 1961, as amended from time to time. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation including amount expected to be paid/recovered for uncertain tax positions. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Advance taxes and provisions for current income taxes are presented in the Balance Sheet after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction for relevant tax paying units and where the Company is able to and intends to settle the asset and liability on a net basis. Current tax assets and tax liabilities are offset where the Company has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Deferred Taxes

Deferred tax is provided in full on temporary difference arising between the tax bases of the assets and liabilities and their carrying amounts in Financial Statements at the reporting date. Deferred tax are recognised in respect of deductible temporary differences being the difference between taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods., the carry forward of unused tax losses and the carry forward of unused tax credits.

Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred tax assets are recognized for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses. Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

Any tax credit available is recognized as deferred tax to the extent that it is probable that future taxable profit will be available against which the unused tax credits can be utilized. The said asset is created by way of credit to the Statement of Profit and Loss and shown under the head deferred tax asset.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

(n) PROVISIONS, CONTINGENT LIABILITIES AND CONTINGENT ASSETS

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognized even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost. The estimates of outcome and financial effect are determined by the judgment of the management, supplemented by experience of similar transactions and, in some cases, reports from independent experts.

Contingent liability is disclosed in the case of:

- A present obligation arising from the past events, when it is not probable that an outflow of resources will be required to settle the obligation;
- A present obligation arising from the past events, when no reliable estimate is possible;
- A possible obligation arising from the past events, unless the probability of outflow of resources is remote.

Contingent liabilities are not provided for and if material, are disclosed by way of notes to Financial Statements. A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.

Contingent assets are not recognized in Financial Statements. They are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognized in the period in which the change occurs. A contingent asset is disclosed by way of notes to Financial Statements, where an inflow of economic benefits is probable. Provisions, contingent liabilities and contingent assets are reviewed at each Balance Sheet date.

(o) GOVERNMENT GRANTS

Government grants are recognized only when there is reasonable assurance that the conditions attached to them shall be complied with, and the grant will be received. Grants related to assets are shown as a deduction from gross value of the asset concerned. Grants related to revenue are reported as separate item and is not reduced from related expense for which the grants have been received.

(p) LEASES

The Company assesses whether a contract contains a lease, at the inception of the contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether (i) the contract involves the use of identified asset; (ii) the Company has substantially all of the economic benefits from the use of the asset through the period of lease and (iii) the Company has right to direct the use of the asset.

Identification of a lease requires significant judgment. The Company uses significant judgment in assessing the lease term (including anticipated renewals / termination options) and the applicable discount rate.

Company as a lessee

The Company recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently amortized using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain re-measurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, and the Company's incremental borrowing rate. The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

Lease payments included in the measurement of the lease liability comprises of fixed payments, including in-substance fixed payments, amounts expected to be payable under a residual value guarantee and the exercise price under a purchase option that the Company is reasonably certain to exercise, lease payments in an optional renewal period if the Company is reasonably certain to exercise an extension option.

The lease liability is measured at amortized cost using the effective interest method. Modifications to a lease agreement beyond the original terms and conditions are generally accounted for as a re-measurement of the lease liability with a corresponding adjustment to the ROU asset. Any gain or loss on modification is recognized in the Statement of Profit and Loss. However, the modifications that increase the scope of the lease by adding the right to use one or more underlying assets at a price commensurate with the stand-alone selling price are accounted for as a separate new lease. In case of lease modifications, discounting rates used for measurement of lease liability and ROU assets is also suitably adjusted. Lease liability and ROU lease asset have been separately presented in the Balance Sheet and lease payments have been classified as cash flows from financing activities.

The Company has elected not to recognize right-of-use assets and lease liabilities for short term leases that have a lease term of less than or equal to 12 months with no purchase or the assets with low value leases. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

Company as a lessor

When the Company acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease.

To classify each lease, the Company makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then it is an operating lease. As part of this assessment, the Company considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

The Company recognises lease payments received under operating leases as income on a straight-line basis over the lease term as part of 'other income'.

(q) CASH AND CASH EQUIVALENTS

Cash and cash equivalents comprise cash and deposits with banks and financial institutions. The Company considers all highly liquid investments with a remaining maturity at the date of purchase of three months or less and that are readily convertible to known amounts of cash to be cash equivalents.

For the purpose of presentation in the Statement of Cash Flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions and other short term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Statement of Cash Flows

Statement of Cash flows is reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

(r) DIVIDENDS

The Company recognizes a liability for dividends to equity holders of the Company when the dividend is authorized and the dividend is no longer at the discretion of the Company. As per the corporate laws in India, a dividend is authorized when it is approved by the shareholders. A corresponding amount is recognized directly in equity.

(s) SEGMENT REPORTING

The operating segments are the segments for which separate financial information is available and for which operating profit/loss amounts are evaluated regularly by the Company's chief operating decision maker in deciding how to allocate resources and in assessing performance. The accounting policies adopted for segment reporting are in conformity with the accounting policies of the Company.

(t) EVENTS OCCURRING AFTER THE REPORTING DATE

Adjusting events (that provides evidence of condition that existed at the Balance Sheet date) occurring after the Balance Sheet date are recognized in the Financial Statements. Material non adjusting events (that are inductive of conditions that arose subsequent to the Balance Sheet date) occurring after the Balance Sheet date that represents material change and commitment affecting the financial position are disclosed in the Board of Directors' Report. Further, the shareholders of the Company have the power to amend the financial statements after the same has been authorized for issue by Board of Directors as per the provisions of the Companies Act, 2013.

(u) EARNINGS PER SHARE

Basic earnings per share is calculated by dividing the profit (or loss) attributable to the equity shareholders of the Company by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for bonus issue, bonus element in a rights issue to existing shareholders, share split and reverse share split (consolidation of shares).

Note 33
LEASES

The Company has buildings on lease with lease term of 9 Years. Lease contract can be renewed with mutual consent and they also contains the termination options. Such options are appropriately considered in determination of the lease term based on the management's judgement. In certain contacts, the Company is restricted from assigning and subletting the leased assets. For leases where the lease term is less than 12 months with no purchase option or the underlying leased assets are of low value, the Company has elected to apply exemption for such leases and accordingly, right of use assets and lease liabilities for these contracts are not recognised.

Refer Note 3 (a) for details relating to right of use assets.

Withdrawal rate (- / +1%)	48.41	48.09

A description of methods used for sensitivity analysis and its Limitations:

Sensitivity analysis is performed by varying a single parameter while keeping all the other parameters unchanged. Sensitivity analysis fails to focus on the interrelationships between underlying parameters. Hence, the results may vary if two or more variables are changed simultaneously. The method used does not indicate anything about the likelihood of change in any parameter and the extent of the change, if any.

Fair value of financial assets and liabilities which are measured at amortized cost is not materially different from the carrying value (i.e. amortized cost). Accordingly, the fair value has not been disclosed separately.

Fair Value Hierarchy of Financial Assets and Liabilities:

Level 1: Quoted prices (unadjusted) in active market for identical assets and liabilities

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the-counter derivatives) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities included in level 3.

Valuation technique used to determine fair values

Derivative instruments are valued based on observable inputs i.e. yield curves, FX rates and volatilities etc.

C. Financial risk management

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk, foreign currency risk and interest rate risk. The Company's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the Company is foreign exchange risk. The Company uses derivative financial instruments to mitigate foreign exchange related risk exposures. It is the Company's policy that no trading in derivative for speculative purposes may be undertaken. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarized below:

Credit Risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and investment securities. Credit risk arises from cash held with banks and financial institutions, as well as credit exposure to clients, including outstanding accounts receivable and other receivables. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The objective of managing counterparty credit risk is to prevent losses in financial assets. The Company assesses the credit quality of the counterparties, taking into account their financial position, past experience and other factors.

Trade and other receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment. Ratings of customers are periodically monitored. The expected credit loss allowance is based on the ageing of the days receivables which are past due and the rates derived based on past history of defaults in the provision matrix.

Other financial assets - investments, cash, derivative assets, loans and security deposits and other bank balances

The Company limits its exposure to credit risk by generally investing in liquid securities and only with counterparties that have a good credit rating. The Company does not expect any losses from non-performance by these counterparties, and does not have any significant concentration of exposures to specific industry sectors. Further, the Company maintains its Cash and cash equivalents and Bank deposits with banks / financial institutions having good reputation, good past track record and high quality credit rating and also reviews their credit-worthiness on an on-going basis.

The table below provides details regarding the contractual maturities of significant financial Assets as at reporting dates:

Total	4,516.41	4,516.41	4,430.55	-	74.30	11.56	

Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company manages its liquidity risk by ensuring, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due. Also, the Company has unutilized credit limits with banks.

Exposure to liquidity risk

The table below provides details regarding the contractual maturities of significant financial liabilities as at reporting dates:

(Rs. in Lakhs)

March 31, 2024	Carrying amount	Contractual cash flows				
		Total	Less than 12 months	1-2 years	2-5 years	More than 5 years

Total	2,014.27	2,223.96	1,495.89	84.00	286.65	357.42

Foreign Currency Risk

The Company's exchange risk arises from its foreign operations, foreign currency revenues and expenses (primarily in U.S. Dollars). A significant portion of the Company's revenues are in these foreign currencies, while a significant portion of its costs are in Indian Rupees. As a result, if the value of the Indian Rupee appreciates relative to these foreign currencies, the Company's revenues measured in Rupees may decrease. The exchange rate between the Indian Rupee and these foreign currencies has changed substantially in recent periods and may continue to fluctuate substantially in the future. Consequently, the Company uses derivative financial instruments, such as foreign exchange forward contracts, to mitigate the risk of changes in foreign currency exchange rates in respect of its forecasted cash flows and trade receivables. The following table presents foreign currency risk from non-derivative financial instruments as on reporting dates:

Particulars (in USD)	March 31, 2024	March 31, 2023
Trade Receivables	\$9.88	\$ 20.09
Total	\$9.88	\$20.09

Following are outstanding forward contracts as on the reporting date:

Particulars (in USD)	March 31, 2024	March 31, 2023
Forward Contracts - To sell USD	\$0.00	\$0.00

The Company is mainly exposed to changes in USD. The below table demonstrates the sensitivity to a 5% increase or decrease in the USD against INR, with all other variables held constant. The sensitivity analysis is prepared on the net unhedged exposure of the Company as at the reporting date. 5% represents management's assessment of reasonably possible change in foreign exchange rate.

Change in USD Rate	Effect on profit after tax		Effect on total equity	
	2023-24	2022-23	2023-24	2022-23

Note 37
FINANCIAL RATIO

Particulars	Numerator	Denominator	2023-24	2022-23	% of variance	Explanation for change in the ratio by more than 25%
Liquidity Ratio						
Current Ratio (times)	Current Assets	Current Liabilities	3.10	3.13	-1%	
Solvency Ratio						
Debt-Equity Ratio(times)	Current & Non-Current Borrowing + Lease Liabilities	Total Equity	0.39	0.12	241%	Raising funds through SBI CC increases our debt component, leading to a higher debt equity ratio on the balance sheet compared to the previous year. This reflects our strategic move to secure immediate capital for operational needs, potentially enhancing long-term growth prospects despite the short-term impact on financial ratios.
Debt Service Coverage Ratio(times)	Net Profit after taxes + Depreciation & Amortisation Expenses + interest + Taxes	Interest + Lease Payments + Principal Repayments of Loan	34.14	21.53	59%	Raising funds through SBI CC increases our interest component, leading to a higher debt Service coverage ratio on the balance sheet compared to the previous year. This reflects our strategic move to secure immediate capital for operational needs, potentially enhancing long-term growth prospects despite the short-term impact on financial ratios.
Profitability ratio						
Net Profit Ratio (%)	Profit After Tax	Total Revenue from Operations	1.85%	3.11%	-41%	The decline in the net profit ratio can be attributed to the unexpected increase in the cost of goods sold (COGS), particularly due to the unanticipated rise in prices of essential raw materials such as kapas. Additionally, the unexpected price hike in cotton bales, a significant part of our finished goods inventory, has further contributed to this increase in COGS. This sudden escalation in input costs has significantly squeezed our profit margins, resulting in a lower net profit ratio. Despite our efforts to mitigate these challenges, the unforeseen market conditions have impacted our profitability metrics.
Return on Equity Ratio (%)	Profit After Tax - preference dividend (if any)	Average Shareholder's Equity	34.78%	38.44%	-10%	
Return on Capital employed (%)	Earning before interest and taxes	Net Worth + Total Debt + Deferred Tax Liability - Deferred Tax Assets	30.94%	39.88%	-22%	
Return on Investment (%)	Income generated from investments	Weighted average invested funds				Not Applicable

Utilization Ratio

Trade Receivables turnover ratio (times)	Revenue from operations	Average Trade Receivables	26.76	9.35	186%	The higher debtors turnover ratio compared to the previous year indicates that we've been collecting payments from our customers at a faster rate. This suggests improved efficiency in our credit management processes, resulting in quicker conversion of sales into cash and better management of our accounts receivable.
Inventory turnover ratio (times)	Cost of goods sold	Average Inventory	81.04	86.75	-7%	
Trade payables turnover ratio (times)	Purchase of stock in trade + Purchase of Raw material	Average Trade Payables	123.05	12.61	876%	The increase in credit turnover ratios highlights our proactive approach in enhancing financial efficiency through streamlined operations, strengthened customer relationships, and effective cash flow management. By optimizing credit policies, negotiating favorable terms with suppliers, and ensuring timely payments, we've fostered trust among stakeholders and positioned ourselves for sustained growth and operational resilience.
Net capital turnover ratio (times)	Revenue from Operations	Average Working Capital	20.54	13.73	50%	The high net capital turnover ratio compared to the previous year can be attributed to the significant increase in sales volume. This rise in sales indicates improved demand for our products/services, leading to more efficient utilization of invested capital to generate revenue. As a result, our assets are being utilized more effectively to drive sales, contributing to a higher turnover ratio and reflecting improved operational efficiency and financial performance.
